

## VPC Connect

This app is a communications tool for users of the Marshall Volunteer Portal (MVP), a service provided by the Volunteer Police Cadets (VPC).

Users may use it to:

- Register to receive push notifications from the MVP.
- Read and manage their notifications.
- Access key information quickly and easily.
- View news and updates.

VPC Connect is built using .NET Core 3.1, and Xamarin. It uses Firebase Cloud Messaging (FCM) and Apple Push Notifications (APN) to deliver push notifications to Android and iOS devices.

## Documentation

- Analytics
- API notes
- Build instructions
- Debugging information
- Developer notes
- Icons
- Infrastructure detail
- Known issues
- Push configuration
- Push content
- Security and risks
- Tools
- Unit and integration testing
